## Professional Summary

---

Angular Developer with 3+ years of experience delivering responsive, enterprise-grade applications across domains such as HR, auditing, and timesheet management. Proficient in Angular 19, Angular Material, Signals, and Bootstrap. Hands-on with CI/CD pipelines, DevOps tools, and mobile-first development using Ionic. Proven ability to build scalable dashboards, integrate REST APIs, and drive UI/UX improvements aligned with business goals. Open to relocation across India or Gulf countries and remote opportunities.

## Technical Skills

---

**Languages:** JavaScript, TypeScript, Python, Bash

**Frameworks:** Angular (v8–19), Ionic, Node.js

**CI/CD & DevOps:** Docker, Git, GitHub, GitLab, Jenkins, Tortoise SVN

**Testing:** Playwright, Unit Testing (Karma/Jasmine)

**Databases:** MySQL, PostgreSQL

**UI Libraries:** Angular Material, Bootstrap, ag-Grid, Chart.js

**Operating Systems:** Windows, Linux

## Professional Experience

---

### **Zensar Technologies** – Software Developer

Bengaluru, India | April 2022 – Present

- **Developed and deployed** a Timesheet Portal in Angular, enabling overtime and food allowance submissions. Designed a manager dashboard using Angular Material and ag-Grid to improve real-time tracking and accessibility for stakeholders.
- **Built a data declaration application** in Angular 19 for employee compliance tracking. Implemented Bootstrap modals and adopted Angular Signals for modern reactive state management.
- **Led the development of an** international employee tracking system, incorporating relocation status, job locations, and salary info. Enhanced UX through data visualization using ag-Grid and Chart.js.
- **Developed a cross-platform Ionic mobile app** to provide company information and onboarding content to 1,000+ employees. Contributed to mobile deployment strategies and release cycles.

### **Inovexia Software Services Pvt. Ltd.** – Software Developer

Bengaluru, India | October 2021 – April 2022

- **Built a Single Page Application (SPA)** for a Canadian truck driving school using Angular. Emphasized clean UI, smooth user flows, and integrated end-to-end testing via Playwright.
- **Upgraded a healthcare e-commerce platform** from Angular 8 to Angular 12, improving maintainability and performance while preserving application integrity.

## Projects & Research

---

- Developed an NLP-based algorithm for real-time **Twitter bot detection** using Python
- Published a paper titled “*Real-Time Detection of Twitter Bots Using NLP*” at **ICMAI-2021**

## Education

---

### **M.Tech in Computer Networking**

Ramaiah Institute of Technology – Bengaluru | Oct 2018 – Dec 2020

### **B.Tech in Electronics and Communication**

Reva University – Bengaluru | Mar 2014 – Mar 2018
